PACIFIC MAIL STEAMSHIP CO. HAS SOLD FIVE STEAMERS To the Atlantic Transport Company

of West Virginia. New York, Aug. 13.—The Pacific Mail Steamship Company, in pursu-ance of its plan announced some time ago of disposing of its fleet and other roperty, has sold five of its steamers to the Atlantic Transport Company of West Virginia. The steamers so dis-posed of are the Manchuria, Mongelia. Korea, Siberia and China. Ne terms were mentioned in the announcement

today.,
The last sailing from San Francisco by any of these vessels to Oriental ports under the Pacific Mail flag will on August 25 by the Mongolia. Some months ago the Pacific Steamhip Company indicated that it would wit draw its deamers from the trans-Purinc service and probably dispose of them because of the new seamen's law, passed by the last s ession of congress, the terms of which, it is claimed, made it impossible for the Pacific Mail to compete with the Jap-anese lines. Many of the members of the crews, chiefly in the fire rooms consist of cheap coolie labor and under the new law the Pacific Mail would have to replace them with mer speaking the same language as the officers of the ship. This, it was stated, was one of the most onerous clauses of the new law, but there were others which contributed to the decision of the steamship com-pany to dispose of its property.

The vessels sold are virtually the argest and best in the Pacific Mail largest and best in the Pacific Mail service. The Mongolia and the Manchuria are twin vessels of 27,000 tons each; the Korea and the Siberia each have a tonnage of 18,000 tons and the China is of 100,200 tons burden.
All these vessels are now in commission in the Pacific service.

May Demand Payment in American Currency.

So many conflicting elements enter into the existing situation that it is difficult to advance any specific reason for the continued decline. It is clear, however, that our manufacturers of girl war supplies and sellers of foodstuffs the are pressing their claim for payment. and that these are being met with depreciated foreign currency. It is generally believed that unless earnest steps are taken to remedy this condition, exchange rates will make further declines to the point where our manu-facturers and vendors will demand payment in American dollars.

Establishment of Foreign Credits. Observers of the situation agree that he only sure way to relieve the existing financial tension is by the estab-lishment of further foreign credits here. Steps to this end are underbe under way, but the amount required to adjust impending obligations is so vast as to make almost any reliefe measure little more than temporary.

Search for Bandits on Texas Border

IN MESQUITE BRUSH 50 MILES NORTH OF BROWNSVILLE,

KILLED MEXICANS

Rangers and Peace Officers to Giv. Border Justice to Mexicans of Bad Records-Brownsville Citizens Apprehensive of Attempt to Sack Town,

Brownsville, Texas, Aug. 13.—Search for a band of about thirty Mexicans, some of them known to be direct from Mexico, proceeded tonight in the mesquite brush about fifty miles north of Brownsville

Strong Border Patrol.

Strong Border Patrol.

Meanwhile 1,600 United States cavalrymen and 1,000 infantrymen on patroy duty between Brownsville and Laredo, Texas, rangers and peace officers used a swift and effective type of border justice which rapidly randown fugitive Megicans of bad records who are accused in connection with recent raids.

The Mexican raids.

with recent raids,

The Mexican raiders north of
Brownsville are the only ones still undisturbed. The band consists of about disturbed. The band consists of about half of those who attacked the Norias ranch house Sunday night. Its members include men alleged to have read aloud a proclamation announcing that they were to take part of Texas. Thirty of the original members of this band came from the Mexican side of the Rio Grande, it is said by officers here.

Apprehension in Brownsville is felt not only on account of what the Mexicans may do in raids, but also as to the truth of reports that in case of any repetition of the Americans lend-ing at Vera Cruz an attempt will be made by Carranza troops in Mata-moros to sack Brownsville in reprisal. So strong is this belief among some leading citizens that pressure will be brought to hear to obtain more troops at Fort Brown, near here, to protect the city

Mexicans Shot While Resisting Arrest, Although the number of Mexicans killed in the raids is given officially as between fifteen and twenty, it is known that more have been killed. Several Mexicans have been shot while resisting arrest or trying to escape. As long as the Texas communities are living day and night under the guard of United States army rifles, rangers and peace officers regard with instant and peace officers regard with instant suspicion any Mexican who is caus-ing alarm. If he makes any threaten-ing move his life is forfeited.

Rangers' Search Is Thorough,

So thoroughly has the rangers' search been made that there is good reason to believe that nearly all the marauders have been driven out of the Brownsville sections or are so fright-ened that they will remain peaceful until they get ald from Mexico. Man-uel Rincones, who said he was forced to join the Mexicans, is said to have given Captain A. V. P. PAN-AMERICAN APPEAL SENT TO MEXICANS.

Carranza is Expected to Maintain the Defiance He Has Shown. Washington, Aug. 12.—The Pan-American appeal to all elements in Mexico to cease fighting and join in

ward from the state department tonight. First the document was despatched in English to Mexico City, directed to the various Latin-American legation, whose attaches will translate it into Spanish and deliver it to the military leaders in that vicinity. Tomorrow the appeal in original Spanish will be forwarded directly to Generals Villa and Carranza, governors of states and many other chiefs in different parts

of the country. The text will be made public here within a few days.

With the appeal despatched, the United States government will institute a friendly and persistent effort to induce Mexican leaders who thus far have shown a disposition to oppose the movement to sacrifice their per-sonal views in the common Mexican interest. That General Carranza will maintain the defiance he had indicated maintain the denance he has agency in recent communications to his agency here on the subject is expected by the administration, but it is regarded as probable that many of his generals and other adherents can be induced to join

in a peace convention.

It is believed here that if a few of the Carranza generals participate in a convention of the factions it will not be long before organized opposition to a new government could be effectively checked.
